

Organization of Quality Control over Industrial Enterprise Products

A.N. Kozhevnikov

Management Company “Versivo” Partnership, Samara

Key words and phrases: quality control; quality control system; quality expenses; market economy; company production; products quality control; standardization and certification of products.

Abstract: The quality control system solves such tasks as determination of basic notions characterizing consumer properties of products; consideration of quality criteria of products and services; evaluation of quality expenses; examination of quality control systems (over products or services); studying of types and forms of products quality control; analysis of standardization and certification of products. Quality control is implemented at national, regional and branch levels as well as at the level of the company (firm).
