

## **Variability of Strawberry Regenerants Produced by Method of Tissue Cultures**

**S.L. Rastorguev**

*Michurinsk State Agrarian University, Michurinsk*

**Key words and phrases:** strawberry; self-cloned variability; callus; sheet disks.

**Abstract:** The results of research into variability of reproductive organs (the number blooms and berries) of plants produced in tissue cultures of strawberry are presented. The preservation of self-cloned changes in  $R_1$  and  $R_2$  of vegetative generations is noted.
