

Compensational Strategies Development of Non-Language University Students in Foreign Language Lessons

Yu.A. Molchanova

Nizhniy Novgorod State Agricultural Academy, N. Novgorod

Key words and phrases: compensational strategy; strategic competence.

Abstract: Strategies contributing to rational and most effective foreign language teaching to students of non-language agricultural universities are proposed. The techniques which will help university graduates to master their profession and get ready for effective work in their profession within the world scale are developed.
