

## **Types of Semantic Markers of Text Components**

**L.V. Samokrutova**

*Tambov State Technical University, Tambov*

**Key words and phrases:** component; differentiation; lexico-semantic level of the language; markers; phraseological unit; reduction; semantics; support words.

**Abstract:** The paper studies the peculiarities of support words as transitive category of elements of the phraseological structure, which correlates closely with the lexico-semantic level of the language and interacts with it.
