Key words and phrases: dialectics of «Singularity…» and Plurality; metaphysical idealism; Max Stirner’s creative work.

Abstract: The paper presents the reconstruction of the fundamentals of M. Stirner’s doctrine based on the analysis of his work “The Ego and its Own”. Arguments in favor of Stirner’s concept of individual anarchism as the doctrine of elitism are given. In contrast to M. Stirner’s ideology the paper argues that the principle of “nothing but me” has a limited scope.
