Tambov State Technical University, Tambov

Key words and phrases: chronological sequence; information bases; memorials; monuments; objects of cultural and historical heritage.

Abstract: The article examines and describes in chronological sequence the very first monuments and memorials that appeared on the territory of the city of Tambov over a hundred years ago. The information on people and events related to these objects of cultural and historical heritage is given. The most valuable findings refer to the data on monuments which were established in Tambov at different times, but due to the various reasons have been lost so far.
