

## **School Bus Operation**

**A. A. Guskov, V. A. Molodtsov**

*Tambov State Technical University, Tambov*

**Key words and phrases:** maintenance and repair of buses; school bus; structural features of school buses; transportation of children.

**Abstract:** The authors analyzed the foreign experience in implementation of projects on schoolchildren transportation; the issues of organization of technical maintenance and repair of school buses in the Tambov region were discussed; special technical requirements for school buses were formulated. The authors identified the design features of buses, adversely affecting the process of transporting children. Proposals for their elimination were made.
